

EASY AND AFFORDABLE DO-IT-YOURSELF INCORPORATION KIT

Simply Legal’s *Incorporation Kit for British Columbia* is available at **Small Business BC’s** bookstore today! Prepared by a B.C. corporate lawyer, this do-it-yourself incorporation kit has all the documents entrepreneurs need to get incorporated properly.

This step-by-step kit also contains easy to follow instructions and information to help you understand how to correctly set-up your company with directors, officers and shareholders. With over thirty pages, it includes a binder that can be used as a minute book with customized tabs, case studies with sample legal documents, and all the forms and templates you need for your incorporation on CD-ROM, including resolutions, customized share certificates and registers.

In addition, this kit includes two types of share structures so entrepreneurs can choose one that best suits their needs: a simple one class share structure or a multi six class share structure.

“We developed this kit so small businesses would have an affordable solution to get incorporated quickly and easily without the costs of expensive lawyer fees,” says Jason Harris, Founder of Simply Legal.

“I believe that this self-guided incorporation kit will be a great asset to those clients who prefer to do it themselves by helping ensure that costly mistakes are avoided. Small Business BC also offers seminars that complement this kit to ensure small businesses are equipped with the proper legal information and tools to set-up their corporation correctly,” continues George Hunter, CEO of Small Business BC.

Where to purchase your *Incorporation Kit for British Columbia*: Small Business BC’s bookstore (\$99 + GST).
