

**RFind CEO Named as Finalist in
4th Annual Stevie® Awards for Women in Business**

Stevie Award Winners to Be Announced in Las Vegas on November 12

Kelowna, BC, Canada – November 6, 2007 – submitted by RFind Systems Inc.

Sharon Barnes of RFind Systems was named a Finalist in the Best Canadian Entrepreneur category in the 4th annual Stevie Awards for Women in Business, presented by Infiniti.

The Stevie Awards for Women in Business honour women executives, entrepreneurs, and the companies they run – worldwide. The Stevie Awards have been hailed as “the business world’s own Oscars.” (*New York Post*, April 27, 2005).

Nicknamed the Stevies for the Greek word “crowned,” winners will be announced during a gala event at Caesars Palace in Las Vegas on Monday, November 12. Nominated women executives and entrepreneurs from the U.S. and several other countries are expected to attend.

More than 800 entries were submitted for consideration in more than 40 categories, including Best Executive, Best Entrepreneur, and Best Community Involvement Program. Barnes is a Finalist in the Best Canadian Entrepreneur category.

Barnes said it was an honour to be nominated as Best Canadian Entrepreneur. “Last month we were thrilled when one of our industry publications, *Managing Automation*, a magazine that focuses on technology solutions for manufacturers, named RFind one of the 2008 Top 10 Companies to Watch. And now with this nomination it’s very flattering that we are again being recognized for our accomplishments.”

“Being named a Finalist in The Stevie Awards for Women in Business is an important achievement,” said Michael Gallagher, president of the Stevie Awards. “It means that independent business executives have agreed that the nominee is worthy of recognition. We congratulate all of the Finalists on their achievement and wish them well in the competition.”

“As CEO of an innovative RTLS technology company, I am thrilled to be a finalist in the Best Canadian Entrepreneur category,” said Barnes. She continued, “I am also extending my best wishes to all the other nominees and finalists.”

About RFind

RFind Systems Tag-to-Tag technology has changed the game of Real Time Location Systems (RTLS) solutions. Industry clients who need a flexible and affordable method to locate large and high value assets in yard applications, manufacturing and production facilities are discovering a better ROI and increased system reliability when they can deploy RFind’s RTLS system.
