

Women IN LEADERSHIP

DEFYING EXPECTATIONS

LUNCHEON WITH TOBEN ANDERSON

Toben Anderson is coming to share how to thrive through the toughest of challenges.

At 36 years of age Toben's entrepreneurial career was put on "hold". She was thrown into the frightening world of cancer. Victorious in that challenge, Toben determined to climb the world's most isolated mountain, antarctica's Vinson Massif.

You do not want to miss this unique "change specialist" and her highly effective methods of embracing change and defeating fear. Learn from her "success perspective" and apply it to your own world of obstacles and changes.
