

British Columbia Small Business Survey

The Small Business Roundtable is carrying out a survey of small business owners across British Columbia, to identify key issues, concerns and opportunities affecting small business in British Columbia, and they want our input!

The Small Business Roundtable was set up in 2006, and its mandate is to provide advice to government and the small business sector on potential issues, opportunities and strategies that will make British Columbia the most small business friendly jurisdiction in Canada. For more information on the Small Business Roundtable visit their website at www.smallbusinessroundtable.ca

To assist the Small Business Roundtable, Malatest & Associates Ltd. has developed a web-based survey intended for distribution to as many small business owners as possible, including women business owners, since we make up 36% of all small business owners in BC!!

Women's Enterprise Centre would like to encourage you to participate in this survey. The survey will take between 10-12 minutes and is available at the following link:
